# G2G 7X77 PREMIUM TAMPER EVIDENT TAPE

G2G 7x77 PREMIUM Tamper Evident Poly Void Tape provides secure container closure and tamper void indication.

This self-wound tape is designed to work with automatic or hand held tape gun dispensers. If tape is lifted, removed or re-taped, a highly visible frosted "OPENED" pattern provides reliable indication. Residue is easily removed from most surfaces.

The G2G 7x77 PREMIUM tape has security print features (*not available from other security tape products*) which includes high resolution patterns and special "S" curved security slits. Consecutive alpha-numeric code aids in documentation of each use and is spaced at 9.0" (228.6mm) intervals.
